JBIS

Journal of the British Interplanetary Society

VOLUME 50 **1997**

INDEX

EDITORS	*THEMES*
R.Hall	Soviet/CIS Astronautics (Parts 11 and 12)
J.G.Pearsall	Economics of Space Commercialisation
M.J.Fogg	Terraforming (Part VI)
L.J.Carter	Propulsion (Part I)
F.I.Ordway and F.Winter	Pioneering Rocketry and Spaceflight (Part VII)
D.A.Day	Cold War Military Space History: Programmes (Parts I and II)
S.Santoli	Exobiology (Part VI)
H.Benaroya	Lunar Commercial Development (Part I)
S.Mara	Anite Systems (Part V)
J.Parfitt	Propulsion (Part II)

AUTHOR INDEX

Ashford D.M.	A Development Strategy for Space Tourism	59
Barth H.	Peenemunde: A Realistic Assessment	173
Benaroya H.	An Engineering Perspective on Terraforming	105
Benaroya H.	Economically Viable Lunar Development and Settlement	323
Caldwell L.R.	Twelve Years of Mir Space Station Operations	317
Cassenti B.N.	Optimisation of Interstellar Solar Sail Velocities	475
Cathcart R.B.	Seeing is Believing: Planetographic Data Display on a Spherical TV	103
Clark P.S.	Recoverable Satellites Flown at 81.3-82.6deg. Orbital Inclination	13
Cocks J.C.,Watkins S.A., Cocks F.H. & Sussingham C.	Applications for Deployed High Temperature Superconducting Coils in Spacecraft Engineering: A Review and Analysis	479
Corbet R.H.D.	SETI at X-ray Energies - Parasitic Searches from Astrophysical Observations	253
Corkhill R.	Envisat Flight Operations Control Centre (FOCC)	399
Day D.A.	The State of Historical Research on Military Space	203
Fogg M.J.	Planetary Engineering Bibliography	117
Gorin P.A.	Zenit - The First Soviet Photo-reconnaissance Satellite	441
Gotzelmann M.	Modelling of Ground Stations for Configurable Monitoring and Control	393
Green J.L.	Russian Participation in the International Space Station: Status and Issues	296
Halyar R.J.	Comparison of Proposed Inertial Confinement Fusion Propulsion Systems for Interstellar Missions	129
Hartley C.	Argentine Ground Station Project Implementation	388
Hendrickx B.	The Kamanin Diaries 1960-1963	33
Hiscox J.A. & Lindner B.L.	Ozone and Planetary Habitability	109
Houchin R.F.	Air Force - Office of the Secretary of Defense Rivalry: The Pressure of Political Affairs on the Dyna-Soar (X-20) Program, 1957-1963	163
Koelle H.H.	The Difference of a Government and a Commercially Operated Lunar Space Transportation System	325
Koelle H.H. & Lo R.	Production of Lunar Propellants (LUNPROP)	353
Landis G.A.	Small Laser-pushed Lightsail Interstellar Probe: A Study of Parameter Variations	149
Landis G.A.	"Magnetic Wormholes" and the Levi-Civitta Solution to the Einstein Equation	155
Lewis J.S.	Resources of the Asteroids	51
Maccone C. & Pianta M.	Magnifying the Nearby Stellar Systems by "Focal" Space Missions to 550 AU - Part One	277
McDowell J.	Naval Research Laboratory Satellites 1960-1989	427
McMahon D.,Kehr J. & Fein J.	The Columbus Orbital Facility - Control Center (COF-CC), An Architecture for the 21st Century	374
McNutt R.L. jr et al	A Sole/Ad Astra: From the Sun to the Stars	463
Matsumoto S.,Isome N., Yoshida T.,Kanamori H. & Takagi K.	Commercial Approach toward the Future Lunar Resource Utilisation	333
Mauntner M.N	Directed Panspermia 3. Strategies and Motivation for Seeding Star-formingClouds	93
Minami Y.	Spacefaring to the Farthest Shores - Theory and Technology of a Space Drive Propulsion System	263
Minovitch M.A.	A Propulsion Method for Achieving Commercial Space Travel (Part I)	137
Minovitch M.A.	A Propulsion Method for Achieving Commercial Space Travel (Part II)	451
Morse A.	Production of a Vessel Traffic Monitoring System	363
O'Dale C.D.	Establishing an Infrastructure for Commercial Space	43
Pearsall J.G.	Space Hotels	67
Pell J. & Wickler M.	TIMON in Space!	383
Pomfret N.E.	The Algal Blooms Monitoring System	371
Powell J.W.	The NOTS Air-launched Satellites Programme	433
Qualkinbush R.	Transit: The US Navy Pioneers Satellite Navigation	403
Richards G.R. & Powell J.W.	Waste Not - The Use of Ex-RAF Thor Vehicles	189
Rosenberg S.D.	Lunar Resource Utilisation	337
Rubashkin D.	Who Killed the Grand Tour? A Case Study in the Politics of Funding Expensive Space Science	177
Salmon A.L.	Science onboard the Mir Space Station 1986-94	283
Salter W. & Dau P.	EUROMIR 95 Ground Segment Design and Implementation	367
Sanders B.	An Updated Analysis of the Three Stage N-1 Lunar Launch Vehicle	303

Schenkel P.	Legal Frameworks for Two Contact Scenarios	258
Shamsutdinov S.	The Selection of Cosmonauts	311
Shayler D.J.	Where Blue Skies Turn Black	8
Siddiqi A.A.	Cancelled Missions in the Voskhod Program	25
Siddiqi A.A.	The Soviet Co-orbital Anti-satellite System: A Synopsis	225
Spires D.N. & Sturdevant R.W.	From Advent to Milstar: The United States Air Force and the Challenge of Military Satellite Communications	207
Stanley P.G.	Prospects for Extraterrestrial Life	243
Tarter D.E.	Is Real-time Communication Between Distant Civilisations in Space Possible? A Call for Research	249
Tilton H.B.	Superresonance and Interplanetary Communications	159
Vis B.	Buran Cosmonaut Flight Assignments	3
Wade D.I.	Small Launch Vehicle Payload Enhancement using Air-Breathing Propulsion Technology	123
Watkins N.W	The MIDAS project: Part 1 Strategic and Technical Origins and Political Evolution 1955-1963	215
Winter F.H. & Wirz S.	Saturn V Reborn - A Giant Restoration	169
Yilin Z.	Development of Chinese Satellites under Prof. Tsien	185
Zubrin R.M. & McKay C.P.	Technological Requirements for Terraforming Mars	83

SUBJECT INDEX

Algal blooms 371
Anti-satellite systems 225
Asteroids, resources 51
Astronomy, solar focal missions 277
Balloon, stratospheric 8
Book Reviews 120
Buran crews 3
Chinese Satellites 185
Columbus Orbital Facility 374
Communications, quantum 249
  Superresonance 159
  USAF satellites 207
Correspondence 115,158
Cosmonauts, Buran 3
  selection 311
  Voskhod 25
Cosmos satellites 13,225,441
Display technology 103
Dyna-Soar 163
Economics 43,59,67,323
Envisat 399
EUROMIR 95 367
Extraterrestrial life, contact 258
  probability 243
FOCAL mission 277
Geographic data display 103
Germany,
  WW2 missile programme 173
Grand Tour 177
Ground Segment
  Argentine 388
  Columbus Orbital Facility 374
  Envisat 399
  EUROMIR 95 367
  monitoring and control 393
Hotels in space 67
Infrastructure 43,325
International Space Station
  Russian participation 296
Interstellar travel 129,149,155
  early probe mission 463
  propulsion 129,149,263
  solar sails 475
  wormholes 155
Kamanin, N.P. 33
Life, extraterrestrial 243
  seeding space 93
Light sails 149,475
Magnetic propulsion
  plasma cloud 137,451
  relativistic 263
  superconducting sails 479
Magnetic shielding 479
Mars, terraforming 83,109
MIDAS project 215
Military programmes
  Dyna-Soar 163
  history 203
  MIDAS 215
